“

It's how teachers think that makes the biggest difference. If they think that evaluating their impact is at the heart of their job, all good things follow.

Cambridge Teacher Standards

5 Implement effective planning, teaching, learning and assessment practice

Teachers:

- 5.1 plan for progression in learning by designing effective learning sequences within lessons and across series of lessons
- 5.2 set explicit, challenging and achievable learning goals for all students
- 5.3 use an appropriate range of teaching strategies, learning activities and resources which develop the students' required knowledge, skills and understanding, and which promote equality and inclusion
- 5.4 develop new learning by building on students' previous knowledge, and provide opportunities for the new learning to be applied so the required learning outcomes are met and progress in learning is sustained
- 5.5 use effective communication skills and adapt their language to suit the students they teach, introducing new ideas and concepts clearly using explanations, questions and discussions effectively
- 5.6 use a mixture of individual, pair and group work activities to meet the needs of all students
- 5.7 make effective use of formative and summative assessment to support student learning and monitor levels of achievement and attainment
- 5.8 use the outcomes of assessment to identify students' learning needs, set targets for improvement, and plan for future teaching and learning interventions
- 5.9 provide students, colleagues and parents with timely, accurate and constructive feedback on students' progress in learning, attainment and areas for development.
